Stereo two 45 r.p.m. LP's

This is the first recording for DirectGrace, hopefully one of many. Costs for this project have come from donations, and profits resulting go directly to organizations that operate without waste; ground level workers who rescue and support the world's most at-risk children. I want to thank Len and Georgia Morris of Galen films, who through their tireless efforts and sacrifice have brought to the world's attention the rapidly accelerating plight and suffering of the most helpless and endangered children.

It would seem impossible to live anywhere in the world, and be immune to the incalculable tragedies and conditions for so many children from every walk of life all across the world. While we live in a world with so much information filtered through the media, it is easy to feel removed from the consequences of our choices that deeply impact lives everywhere. It is far too easy to consume the products we take for granted and never imagine the depth of misery brought upon young lives to produce it. Nothing disturbs me as deeply as the exploitation and abuse of children. The Global Market has made invisible the horrific and tragic practices being perpetuated to make a greater profit. Most of us know that Multi-National Corporations have no conscience when it comes to the bottom line. Thinking about our own actions that have such clear ramifications worldwide seems to only be the very first step.

I became aware of DirectGrace.org when I was approached to play on these recordings. At the onset I did not know as much as I do now. My contribution of my time and these performances is the least I could think of doing to support, bettering the lives of children worldwide.

I hope to have much more involvement both professionally and personally in doing anything I can to help change the opportunities for the most vulnerable and important people in the world. Our children.

I hope this music, in some small way, helps.
